The Designer Wedding Show took place for the fourth season on 3, 4 and 5 November and attracted over 6000 visitors. Temperley London, Stewart Parvin, Jenny Packham, Ben de Lisi, Sharon Cunningham and Vera Wang were among the designers revealing their 2007 couture collections at the show, as were Oscar de la Renta, featured in the photograph on the left, Monique L'huillier at Browns Bride and Elie Saab, Manuel Mota and Valentino at Pronovias. The Designer Wedding Show selects its participants through an independent vetting panel to ensure the presence of only premium brands - approximately 120 in all - to encompass every essential detail for a modern, stylish wedding. The fashion shows at the event are styled by Hilary Alexander, fashion editor of The Daily Telegraph and include designs and accessories from exhibitors

only. The event takes place again on 16 – 18 February 2007 at Battersea Park, where the designers are joined by Amanda Wakeley. For further information, please visit www.designerweddingshow.co.uk or contact the organisers on 020-8563 7036. For all press information, please contact Lucy Clifton. T: 020-8563 7036.

Joy of Colour has added a new service to its portfolio of colour and style management. The launch of a new online service means that clients may now fill in their details online and receive a personalised, individual and unique colour and style analysis within five days. Michaela Jedinak of Joy of Colour believes that colour and style can influence not only appearance, but also emotion and

confidence and that by finding the right shades for someone, life can be improved. The service comes in two packages, the full service is priced at £49.99 and a basic version at £19.99. Michaela is available for colour advice across fashion, beauty and lifestyle and can add her expertise to corporate events or press campaigns. Her website www.joyofcolour.com offers invaluable advice, from choosing the colour of a car, to which shape of glasses to choose to frame the face. Please contact Carol Richardson for further information.

Charnos has launched the Hourglass Collection, a range of figure enhancing corsetry lingerie designed with the sexy femme fatale in mind. The Hourglass collection is available in a range of sizes starting at 32B through to 38DD in the corselette, 32B – 38F in the Long Line Bra. Briefs are available in sizes 10 – 18. The five piece collection features a Parisian style Corselette with suspender attachments and built in balcony bra. Waist Nipper Briefs, enhance form and create or hide curves where necessary. Waist Nipper has an extended middle section with stretch satin fabric finishing just under the bust. Similar in effect is the Long Line Bra, available in black or blush, it features a plunging cup lace bra, delicate straps and extended fabric panels. The Long Line Bra reaches to the waist to create a slimline, smooth silhouette. For press samples, images and all other information please contact Lucy Kemp at Maverick Publicity.

Harvey Nichols Knightsbridge launches Beyond Spa on the Fourth Floor. A new health destination with full-time, on-site dermatologists, physicians and a highly

trained team of medical aestheticians. All this is under the care and guidance of renowned US plastic surgeon, and founder of the pH Advantage cosmeceutical line of skincare, Dr Barry Cohen. Beyond Spa's board of advisors also includes Dr Tina S Alster M.D. (an internationally acclaimed expert on cosmetic dermatology and laser surgery, and Clinical Professor of Dermatology at Georgetown University) and Dr Jay Austen (plastic surgery faculty Harvard Medical School and Massachusetts General Hospital). Beyond Spa Medispa offers full-time, on-site physicians, who will use multi-spectral imaging and analysis technology to provide a comprehensive evaluation and plan for facial rejuvenation and ongoing skincare regimens. The treatment plans embody Dr Cohen's integrated approach to promoting a lifetime of skin health and will include advice on the most effective skincare regimes (both prescription and non-prescription) as well as guidance on minimal or non-invasive medical skincare and cosmetic services. Among the medical skincare and cosmetic services are: chemical peels, microdermabrasion, Laser skincare treatments, Intense pulse light therapies, Botox/Juvaderm/Restylane injections, collagen stimulation and teeth whitening. Scheduled to open on 8 December, there will be five treatment rooms and a retail area providing both non-prescription as well as prescription-only dermatological skincare.

For further information please contact Anna Hooper or Abbie Draper at The Communications Store.

A groundbreaking technological advance in the field of aesthetics, **Ultrashape** offers the only painless, non-surgical, non-invasive slimming treatment to eliminate undesirable fatty areas and cellulite without recourse to liposuction, strict dieting or a rigorous exercise regime. Developed over the last five years by a team of plastic surgeons and doctors in the USA and Israel, Ultrashape Body Contouring is specifically designed to remove fatty deposits and redefine the traditionally problematic, cellulitic areas of the physique - the stomach, hips, flanks, thighs and bottom. The treatment is a walk in, walk out clinic treatment, with no down time recovery and none of the high risks associated with surgical liposuction procedures. There is no risk of infection, fat

embolism, deep vein thrombosis, uneven fat removal, keloid scarring or bruising and none of the inconvenience of uncomfortable and cumbersome bandages and the disruption to everyday life which surgery entails. Clients experience only a warm, pleasant sensation during the treatment and are free to resume normal activities immediately afterwards. eg. sport, air travel etc. After the initial 1-2 hour session, an average loss of 2 - 2.5cm can be anticipated. An Ultrashape Body Contouring session costs from £500.00, depending on the area treated. One to four sessions are recommended. The Ultrashape Body Contouring device has obtained CE classification (No 0344) in July 2005, certifying it as a safe medical device for slimming purposes, backed by worldwide patents. Ultrashape Body Contouring is available at the I Care For My Body clinic, 36 Knightsbridge, London SW1. www.icareformybody.co.uk

For further press information, visuals and quotes or to experience an Ultrashape treatment, please contact Lucie Howard at Metamorphosis PR.
